When you are as old as I am, you see a lot of things happen in 35,000 years. The Egyptians are closest to the most royal dynasty that ever lived. They are closer to the Gods than the Israelites ever will be because the Israelites are the ones who unseated the original Egyptian kingdom. The Watusi are the original Egyptians. They had red hair and green eyes. The Gods of 455,000 years ago helped to create their culture. Egyptians don't look like the rest of the Mediterranean people. Do you know what the Watusi are, that wear the royal red? They even wear the royal plaid of Scotland.

The great Africans that are six feet and above are the original Egyptians. They are the original Scots. What is the name of the tribe in Africa that herds cattle and are fearless lion hunters and wear red? The Masai and the Watusi are the same tribe. The original Masai and Watusi had ebony-colored skin but copper hair and green eyes. Where did their lineage come from? From the Gods beyond the North Star.
