

# **Genius In Action**

## **“Don’t resist — create!”**

### **Program Guide**

One way to awaken the genius latent within you is to be exposed to new knowledge and new experiences in order to view yourself in a new light. Ramtha's school encourages you to test the philosophy and the usefulness of the techniques in the laboratory of your own life. Personal truth does not accumulate through collecting knowledge. Truth is earned by living the experience of your creative efforts. Creating a new future for yourself opens the door to the genius within. And genius has a passion for the future.

#### **Module 1 Session 1**
