

# The Vacuum State

## The Craft of Immortal Masters and the Gods

Over the years, Ramtha has been hinting and teaching us about this elusive and legendary mystery that all true masters know and operate in: the Vacuum State.

Learning to master the Vacuum State of the Now, outside of the arrow of time, is the key to becoming an immortal master, quantum leaping in unlimited parallel universes. It is also the key to creating any and all we desire in all dimensions of possibility in the mind of God and the quantum field. It is the quantum state of a master.

Ramtha explains how the Vacuum State is also used by advanced alien civilizations to traverse space, time, and dimensions in hyperspace or no-time. In this workshop we will study a selection of key teachings by Ramtha that show us the way to enter this fabled state of extraordinary magic.

“... We fold space/time. We exist in a modality called the vacuum state. In other words, we don't exist in time anywhere. We slide in and out of parallel realities. When we land, there is a shield all around us, which is antigravity but also we can walk around and take you onboard.

“We don't travel. We just are. We become. We unfold and enfold. When you focus and now you are on and can see that word and that tunnel effect is coming in, you have just entered a vacuum state.”

— Ramtha
