

The New Earth and the New Sun – program guide

How do we get from here to there?

How do we neutralize and cleanse a planet? You can't imagine how much of you is going to disappear in one night. You can't imagine how much of your personality will be melted away because Big Brother is turned off and gone. This web that surrounds the world, this natural ambient atmosphere that provides electricity, electromagnetism, and extraordinary technology is going to be all gone, and the sun, the king of terror, brings it down.
