To view the grid, you need to install Google Earth on your computer.

<https://earth.google.com/intl/earth/download/ge/agree.html>

When you open you need to switch the view to "Sky" mode, on the Windows version there's a small planet like icon at the top for that.

Then enter these coordinates into the search field (copy/paste as formatted):

05h 17m 23.67s, -27° 41' 45.12"
