

Online Workshop:
Initiations at the Schools of Ancient Wisdom
“Ride the Light”

Original Date: April 11-12, 2026

Event Description:

Progressive workshop from the Vault on the schools of ancient wisdom, then and now, and the initiations that brought the students into a state of illumination and expansion of their consciousness. This event captures Ramtha’s initial teachings from 1988 on the breath of consciousness and energy and learning to “ride the light.” These teachings launched the very beginning of Ramtha’s School, modelled after the ancient mystery schools, under a Master Teacher with the power to initiate his students. Ramtha explains how all the great Masters of legend, including Buddha and Christ, were also trained and initiated in ancient schools of wisdom.

At this Workshop, Ramtha leads and teaches his students how to raise their energy and open the latent brain to access the eye of God and the Void of all possibilities. Ramtha describes “the lotus blooming in the brain,” the “garment of light,” “the Book of Life,” and the importance of the time spiral and the golden mean for manifestation by the initiate student.

Discover the secrets Masters and Initiates know and rekindle the Great Work and its bounty of manifestations in your life by participating in this 2-Day Online Workshop.

See you there!

“In learning how to stretch your understanding this day, this audience is like an old school that used to be quite prevalent in all the landmasses. They were called the ancient schools. These teachings are from those ancient schools.”

“Every part of your life, I want it to light up so there is no darkness there. I want you to see it, that you have control over it.”

“I will see you in your lives and in that midnight sky. I promise. So be it. I love you.”

“So day one of the Ancient School has begun.”

— Ramtha
